

# ARIDALY

UI / UX Designer focusing on creating positive user relationships with technology through intuitive and innovative design.

## EDUCATION

- CARNEGIE MELLON UNIVERSITY**

MS, Human-Computer Interaction

August 2020

BFA, Electronic And Time Based Media

May 2019

Academic Honors

## EXPERIENCE

- CMU HISTORY DEPARTMENT | UX DESIGNER**

Present

Creating a mobile app design in a team of five for a CMU research project on the Manila traffic crisis. The app will enable Manila research participants to report and crowdsource emotional and logistical information on shared routes.

- TEAMLAB | INTERACTIVE TEAM INTERN**

December 2018

Individually created a proposal and prototype of new projected content for teamLab's [Borderless Museum](#) exhibit, [Aerial Climbing](#), after observing and analyzing user interactions with the existing exhibition.

- DEEPLocal | SOFTWARE ENGINEER INTERN**

Summer 2018

Developed and deployed client facing live statistics site for [Google Home Mini Golf](#) in a team of two. Created front and backend controls for a plotter UI as the software lead with an integration engineer and designer.

- IONTANK | CREATIVE TECHNOLOGIST INTERN**

Summer 2017

Created client facing concept deck for a Google installation. Worked individually from concept to execution to create a polished physical design prototype for large scale ceiling hung installation.

## NOTABLE PROJECTS

- CMU TO GO | COURSE PROJECT**

In Progress

Worked in a three person team to conduct user research on the food trucks along Carnegie Mellon campus for a responsive web design. Conducted interviews and observations, synthesized results, and created personas.

- TRANSPORTATION HUB | COURSE PROJECT**

Spring 2019

Designed an interactive display for a fictional transportation hub to dynamically show their plane, ferry, and train transportation data. Analyzed data to create wireframes, interface, and motion designs.

## SKILLS

- UX RESEARCH**

Interviews & Observations  
Usability Testing  
Heuristic Evaluation

- UX DESIGN**

Personas  
Scenarios  
Storyboarding  
Wireframing  
Rapid Prototyping

- DESIGN TOOLS**

Adobe Suite  
- Photoshop  
- Illustrator  
- InDesign  
- XD  
- AfterEffects  
- PremierePro

Invision  
Figma

- CODING**

Frontend  
- HTML & CSS  
- JavaScript & jQuery  
- Bootstrap

Backend  
- Node.js

Creative Coding  
- Unity3D  
- Processing  
- P5.js

- Arduino, RPi

Git (Version Control)
